Within a classroom culture of healing, nurturance, and love, and through the use of small and large group activities, children will grow in their ability to connect and make friends with others, calm and regulate their emotions, and grow in their self-esteem.

Reach Dane opened a therapeutic preschool classroom for 3 year-olds in the Fall of 2021. The goal of the classroom is to provide access to learning for children that have experienced trauma or other social inequities that may put them at risk of experiencing achievement gaps.

Family Engagement

Families are an essential part of the classroom team along with the classroom staff and the Child and Family Resilience Specialist.

Parents participate in the Your Journey Together resilience-building parenting curriculum. This program builds on the strengths of the family and provides simple, everyday ways to build parent relationships with their child and supports family well-being.

Our Program

ELIGIBLE CHILDREN

Children that meet the Federal requirements for Head Start AND have experienced trauma, extreme stressors, or other factors that parents or caregivers believe could put their child at risk for missing developmental learning outcomes.

CURRICULUM

The children will gain social emotional (ex. empathy, kindness) and problem-solving skills (ex. sharing, taking turns) in a play-based and age-appropriate environment. Each day the children will receive 2 meals and play outdoors (weather permitting).

CLASS SIZE

The classroom will have only up to 8 children enrolled. This is intentional so that children will receive many opportunities for learning and growth.

TRANSPORTATION

Bus transportation will be available within a designated area for qualified students.

Parent Quotes:

"We've noticed improvements in our child's ability to talk about and regulate her emotions. I really feel like the small class size and high level of adult support was key in that growth."

"When we first enrolled, I understood that our child would be supported in the classroom, but I didn't expect to gain so much from our parent meetings. Having that time set aside to reflect on family goals and growth has really helped us."

JUSTDANE

CHANGING LIVES, CHANGING THE COMMUNITY

Just Bakery

Just Bakery is a social justice enterprise working with individuals who face significant employment barriers such as homelessness, lack of work history or skills, mental health challenges, or involvement in the justice system. Through classroom learning, hands-on practice and customer service, students become certified bakers, can earn college credits, and get a fresh start in life.

Just Bakery products are for sale online and in the community. We re-invest all proceeds to support the bakery.

Journey Home

The Journey Home program is a re-entry initiative designed to immediately connect returnees to a complex network of services in Dane County. JustDane's Reentry Resource Specialists assist program participants to find the following core supports to re-establish themselves in the community:

Residence-Employment-Support-Education-Treatment-Transportation

Peer Support

Someone who has been released from incarceration often finds reentry overwhelming, and circumstances that contributed to incarceration may still be present. JustDane's certified Peer Support Specialists serve as skilled guides. Their lived experience gives them unique ability to encourage their peers to build on personal strengths as they connect to local resources and support. With mutual understanding, peers work together to navigate the reentry process.

Circles of Support

For people coming home from prison it can be a challenge to avoid old lifestyle decisions that led to incarceration in the first place. Positive support and feedback make a huge difference. JustDane's Circles of Support are made up of 5-6 community volunteers, and one individual recently released from an institution. They meet weekly to decide on small, achievable goals that build personal support networks and success. Most circles last six months and end when the group agrees things are going well. Our restorative circle model demonstrates that people do indeed turn their lives around.

Healing House

Located in Madison, Healing House is an 8-bed facility, providing 24/7 recuperative care to families that are homeless and have an immediate family member in need of ongoing care during recovery after a medical procedure. Trained staff and volunteers provide care, meals and childcare assistance for up to 28 days. Our partner, The Road Home, provides housing case management.

Just Connections

JustDane supports children impacted by parental incarceration. Our Just Connections initiatives maintain family bonds by accompanying children on visits to mothers in prison, by connecting children and their parents through our books-on-video reading program, and by matching children with adult mentors.

Re-Entry Simulation

This JustDane workshop is an immersion experience that leaves participants with a deep understanding of recidivism. It prepares the community to support reentry success and policy reform.
